- Medicare Advantage allows Medicare beneficiaries to receive Medicare-covered benefits through private health plans instead of through Original Medicare. Advantage plans often include additional benefits beyond those included in Medicare Part A and Part B such as prescription drug coverage, dental and vision coverage and even gym memberships.
- Cancer, Heart Attack & Stroke policies offer lump sum benefit paid directly to you (or someone you designate), regardless of any other health insurance coverage you have, upon first diagnosis of cancer and heart attack or stroke.
- Dental, Vision, Hearing insurance provides coverage in all three areas. This helps reduce the costs of your routine exams, x-rays and procedures for all three services.
- Hospital Indemnity Plans are fixed-indemnity plans that provide benefits for hospital confinement and other specified medical and surgical events.
